

COVID-19 testing

Here at **DRPG**, safety is our number one priority. As well as following the guidance on 'Hands, Face, Space', we are carrying out rapid testing for COVID-19 Antigen on anyone entering our buildings. To do this, we are using the Healgen COVID-19 Antigen Test which is a nasopharyngeal (NP) swab that provides results in 15 minutes.

The test is administered by one of our trained team members in a controlled environment.

DRPG Assessment Centre

On arrival to our site, please follow the signs to the **DRPG** assessment centre. You will need to put on a blue, medical grade face covering that will be provided on arrival.

The test

It's a really quick test that will be administered by one of our trained team members in a controlled environment.

You will be asked to complete a consent form providing us with all the information we need to report back to Public Health England (PHE).

You will go to one of our test booths where our trained member of staff will explain the process to you.

The test is a throat and nose swab done in that order. Each one takes just a few seconds to complete.

Once the sample is collected, results will be displayed in 15 minutes.

The results

Negative results - If you test negative for the virus, this means you are at low risk of having COVID-19 at that moment in time. It does not mean you are definitely negative for COVID-19, nor that you are no longer at risk of catching it in the future. You do not need to self-isolate if your test is negative, as long as:

- no other member of your household has symptoms or has tested positive
- no one in your support bubble has symptoms or has tested positive
- NHS Test and Trace has not told you to self-isolate
- you feel well – if you feel unwell, you should stay at home until you feel better

Positive results - If you test positive, then you will be asked to go home and self-isolate for the next 10 full days according to government guidance available at www.gov.uk

Data processing

We have a legal requirement to report all test results on the Public Health England (PHE) secure portal. Data is processed in accordance with GDPR and the Data Protection Act 2018.

Questions

If you have any questions ahead of your visit, talk to your **DRPG** contact or give us a call on **01299 250 531**.
